Let us put you in the chips.

Our satellite boards hold up to four game chips in one machine.

Greyhound Electronics, Inc. has now applied all of the technology of it's floor units into a swivel mounted table or counter top model that gives you, the operator, the capability to update your game as new games become available.

This "game changing" feature incorporates a satellite board which holds the game ROM's. To change a game all you do is unplug the satellite board, replace one of the game chips with a new one and insert the satellite board to it's original position. This game comes equipped with: Video Draw Poker with a Hi-Lo feature; Casino Slots, superior to anything on the market; Black Jack; and Beat-the-Spread, also know as Acey-Duecy or Red Dog.

A color monitor that displays graphics in fine detail and vibrant colors make each and every game come alive on the screen.

So if you're looking to turn the tables on declining profits...turn to GEI. Amusement games for fun and entertainment only.

Oversized rear access cash draw. Holds up to $1000 in quarters.

Neutral density acrylic shield to enhance and protect the picture tube.

Specially designed 13-inch Wells-Gardner monitor for superior color graphics.

"Action Entry" coin entry and return positioned on the front of the unit for easy access.

High-impact ABS Royaiite case for long-life and durability.

Side shrouds protect screen from ambient light or light distortions.

Baked-on textured epoxy finger board plate eliminates finger prints and insures durability.

Buttons are keyed into the panel which guarantees horizontal alignment in one straight line.

Wide turntable base for player comfort.

Completely shielded power supply to eliminate on screen distortion.
